Subj: Follow-Up Telephone Call With Brad Kizzia

1. This supplements my memo of October 26, 1995 regarding telephonic contact with Brad Kizzia.
2. Mr. Kizzia returned my call today. I asked him if the ARRB could have copies of any depositions pertaining to the *medical evidence per se*, as differentiated from the lawsuit of Charles Crenshaw vs. JAMA, in which we are *not* interested in our role of collecting records reasonably related to the JFK assassination for the collection. I also asked him if he had access to during the discovery process, or retained copies of, Dennis Breo's audio tape recordings of the JAMA interviews with Drs. Humes, Boswell and Finck.
3. His answers were as follows:
 - A. He has deposition material from Charles Crenshaw relating to the President's wounds as Crenshaw observed them at Parkland hospital, and he has deposition material from Dr. Livingston of the NIH, the person who claims to have called Dr. Humes prior to the autopsy to discuss the President's throat wound. He told me that Dr. Livingston discusses not only his telephone call with Dr. Humes on November 22, 1963, but that Dr. Livingston also provides his professional opinions regarding interpretation of the medical evidence in the JFK case. No other Parkland medical personnel, beyond Dr. Crenshaw, who attended to the President on November 22, 1963 had been deposed by the time the out-of-court settlement was reached between Crenshaw and JAMA.
 - B. He also told me that Dennis Breo said under oath, in response to questions about the audio tapes of the JAMA interviews, that he had destroyed both his notes and the audio tape recordings of his interviews with Drs. Humes, Boswell and Finck.

4. Mr. Kizzia agreed to mail us the pertinent excerpts from the Crenshaw, Livingston, and Breo depositions regarding the content of subparagraphs 3a and 3b above.

5. Brad Kizzia's work telephone number, supplementing his home telephone which I provided on my October 26th memo, is: (214) 651-4592. He invited us to call him at work "any time."
