SUBJECT: "NBR" Memo Re: U.S. Army Investigative Records Repository (IRR) File on Vladimir Slovoda

1. The Military Team has carefully reviewed the U.S. Army's investigative counterintelligence file on U.S. defector Vladimir Slovoda. Buried within this file are four RIFed documents that I recommend be designated as NBR, as follows:

(1) Three postponed-in-full documents about a PFC Joseph T. White, who defected from the U.S. Army across the DMZ into North Korea in September, 1982: document numbers 194-10001-10417; 10323; and 10421.

(2) One postponed-in-full telex (DTG 082152Z DEC 67) from CIA to State, regarding 2 deserters from USS *Intrepid* photographed aboard the Soviet ship *Baikal*: document number 194-10001-10415.

2. The four documents cited above clearly fit within the established definition for "NBR" records.
