

April 10, 2017

Mr. Jim Toner
Eastman Kodak Company
Head, Imaging Sciences Resource Lab
1700 Dewey Avenue
Rochester, New York 14650-1925

Dear Jim:

Enclosed, for you to distribute, are official "Thank You" letters from the ARRB to the various Eastman Kodak employees whom you identified to me prior to my departure on November 7, 1997.

Our Executive Director, Jeremy Gunn, will be writing letters to you and Jim Milch himself. Please let me take this opportunity, however, to give you my personal thanks for Eastman Kodak's extremely generous support of Special Project "A" in terms of both physical resources, and personnel support. You clearly assigned your best people to this project, you ensured that all required resources were available to do the job, and your personal, hands-on management and enthusiasm were, in my opinion, indispensable to the success of the project. Your flexibility in meeting our evolving needs for this project has been a model of customer support which I know Eastman Kodak is very proud of.

It has been my great pleasure to make your acquaintance and to work with such a "top drawer" professional.

Sincerely,

Douglas P. Horne
Chief Analyst for Military Records
