RE: URGENT VIRUS WARNING (from Foomer)

I just came across this... There is a computer virus that is being sent across the Internet via e-mail. If you receive an e-mail with the subject line "Good Times", DELETE IT IMMEDIATLY. A user of AOL has been sending these across the Internet, if you receive one, DO NOT download the file. This virus is incredibly dangerous. It rewrites your hard drive and obliterates anything on it. Please forward this e-mail to anyone you care about. Thank you.
