Dear Ms. Frank:

As I mentioned to you this morning, the Assassination Records Review Board would like to receive a briefing from your agency.

In addition to any issues that you may wish to raise, the Board would like to address the following:

- 1. Overview of the JFK Assassination review process followed by NSA.*
- 2. NSA's view as to how the term "assassination record" should be defined.*
- 3. Discussion of postponement and referral issues from NSA's point of view, including examples of postponed and referred information and categories.*

We look forward to meeting with you. Please contact me if you have any questions.

Sincerely,

*David G. Marwell
Executive Director*
