---

We have located some important records in the possession of a former staffer with the House Select Committee on Assassinations (HSCA). She has refused to provide the records to us because of the provisions of a nondisclosure form that she signed while on the HSCA staff.

We believe that a letter from Mr. Stokes (who signed the nondisclosure form as Chair of the Committee) such as the one that follows would be effective in helping us get this important material.

Please let me know if you think Mr. Stokes would agree to send such a letter.

Thank's, Leslie.
