

“I believe the major issues include, first, how will agencies and others who hold records define the universe of , quote, ‘relevant’ Kennedy assassination materials. It is important to be able to go beyond the frame of reference of previous inquiries of commissions and committees, but the question must be asked, where will the search for documents end. In other words, what is relevant?”

Senator John Glenn, hearings on JFK Act

“One involves setting the boundaries of, quote, “assassination material.” The joint resolution defines the term “assassination material” as “a record that relates in any manner or degree to the assassination of President John F. Kennedy.” Given the wide ranges of theories that have developed as to who killed President Kennedy and why, many types of records arguably relate in some way to the assassination. What records regarding, for example, Cuba, Vietnam, and organized crime should be covered? This matter requires careful consideration.”
Senator Boren, hearings on JFK Act
