

MEMORANDUM

August 25, 1995

To: David G. Marwell
From: T. Jeremy Gunn
Subject: Miscellaneous

I will be on vacation on Campobello Island, New Brunswick, from August 26 through Labor day. I can be reached on August 28-Sept 2 at (506) 752-2616. Please do not hesitate to call if anything important comes up.

We need to discuss several matters. I will try to call you. The matters include:

1. We should discuss the three errors in the Federal Register.
2. The visit to the State Department by Jack, Phil, and me. We discussed how the State Department might assist our obtaining foreign government cooperation on release of FBI records. You should talk to Phil about this as well, particularly State's call to the FBI after our meeting. See Agency contacts for Hartingh.
3. We need to decide whether we will be submitting an additional response to the President. I have spoken to Jack about this, and we agreed that it would be best to have a draft available only *after* the Board meets. Accordingly, I will fax a draft from Canada as soon as the Board meeting is over.
4. There have been no developments on the Connick front. Anne would like to schedule a trip to New Orleans. I called Rich Brown, and asked for Justice's advice on whether she could go. I raised the possibility that it might be time to force the moment to its crisis by having Anne go down with the idea in mind that she may be served with a subpoena. Justice is debating this idea. As far as we know, Connick has not made contact with Reno.
5. Subpoenas.
6. I suggest that you make Phil Acting General Counsel so that he can attend the Board meeting and complete the General Counsel's certification.

7. We have heard nothing further from the Secret Service.
8. We learned that some DEA records that we requested were destroyed in June, 1995. You should talk to Kevin about this.
9. I have prepared two rough drafts of letters that should be sent to NSA. Could you fix them up and send them?
10. I invited Tim Wray to come over to look at our draft letters to DOD, Navy, and Air Force. He has reviewed the letters -- which are now ready for your signature.
11. Meeting with Mikva.
12. NSA
13. New FBI issues.
