Re: Follow-up to Additional Information Request No. FBI-36 (Hoover files)

Dear Carol:

The Review Board is working with the FBI to identify any records relating to the assassination of President Kennedy that were maintained in the office files of FBI Director J. Edgar Hoover.

Pursuant to our request FBI-36, you made available to us a document dated July 7, 1972, entitled "Inventory of Certain Hoover Records Prepared for Mark Felt" (an excerpt of that inventory is attached hereto). This inventory suggests that Mr. Hoover retained certain investigative reports or summaries regarding the assassination as well as "miscellaneous letters and memoranda." The inventory also suggests that these materials were transferred in 1972 to the Research Section of the FBI's Domestic Intelligence Division.

We now request that the FBI explain the disposition of these assassination-related records. To the extent that they have already been processed or have been designated for processing under the JFK Act, please identify them for us and advise us of their current status. Otherwise, please locate the records and apprise us of the results of your search. To the extent that you are unable to locate the records, please describe, in writing, your understanding of their final disposition.

Ms. Carol Keeley
