

MEMORANDUM

April 29, 1997

To: File

From: Joan Zimmerman

Subject: FBI-HSCA Files

Today I provided Laura Denk with three lists pertaining to the FBI's HSCA files that I researched and prepared in the late summer of 1996. One is dated August 15, 1996, and it lists names of 47 individuals and identifying information from Peter Dale Scott. A second list dated October 24, 1996, provided additional information about 221 topics and individuals not on the original list given to Jeremy Gunn by LuAnn Wilkins in the summer of 1996. That is, these individuals appeared on the old, original list of all names requested by the HSCA that the FBI Team received from Carol Keely in early 1995. A third list dated August 12, 1996, included information on 248 individuals whose names appeared on the HSCA list LuAnn Wilkins gave to Jeremy Gunn in the summer of 1996. These lists take into account the processing stage at the FBI. That is, if the file was already in the final stages, I did not include it on the priority lists. In order to identify the individual on the FBI's lists, I checked the Mary Ferrell database, the HSCA database, the FBI database, the HSCA volumes, Peter Dale Scott, John Newman, and documents in the HSCA collection.

I also described the database with priority categories that is based on my lists. It is "The FBI's HSCA Collection" database.
