The Assassination Records Review Board is especially interested in the completion of or resolution of several issues:

Please clarify the status of Secret Service documents at the LBJ Library before May 1, 1997. You may either present documents with postponements for the Review Board's May 12-13, 1997 meeting or open them and provide NARA and the Review Board with a data disk in accordance with the procedures outlined in our May 29, 1996 letter.

We ask that you make arrangements with Steve Tilley to mark or stamp Secret Service documents from the Warren Commission so that he will be able to make them available to the public. A representative from the Secret Service will need to examine these documents in person at the JFK Collection at NARA in College Park. We request that you complete this process by May 1, 1997.

We ask that you respond to our February 11, 1997 letter and clarify your position regarding research identification forms for your protective surveys at NARA.

We ask that you complete your Statement of Compliance and indicate to the ARRB who the Compliance Official at the Secret Service is.

We appreciate your assistance with these issues.
