Re: CIA Documents Listed in US Secret Service Classified Document Log

Thank you for providing copies of the CIA documents. I am returning the "Secret" copies to you and keeping the sanitized versions. I was glad to see that these documents had already been processed by you and the Review Board.

I noticed two issues as I looked through these documents.

1. In 104-10015-10229, the item that you wished to postpone is not completely redacted on the sanitized copy. I am showing this to Kathy in the CIA room.
2. I did not receive a sanitized copy of 104-10015-10378. Would you please provide one? I am returning the "Secret" copy.

Thanks again for making these copies.
