

MEMORANDUM

January 19, 1996

To: David Marwell, Jeremy Gunn, Phil Golrick, Noelle Gray, Jerrie Olson

From: Joan Zimmerman

Subject: USSS Materials for the January 30-31, 1996 Meeting-- ADDRESSES

I. The following HSCA document was originally presented to ARRB by the Secret Service on October 20, 1995. It contained *three* postponements--all for the same street address of a former Secret Service agent. In her letter of November 9, 1995, Jane Vezeris presented a revised list of documents with postponements; the following document was not included on the final USSS list of postponements:

180-10118-10068

Another document containing the same agent's address was released in full by the Board at the November 14, 1995 meeting. This document--180-10112-10218 (agency file # 004119)--was released per the Jane Vezeris letter of November 9, 1995, where she stated: "We have removed from consideration quite a few of the documents which were cited in the October 20, 1995 letter. **Many of those removed from the list are documents which cited the home addresses of former Secret Service employees, where we were able to verify that the employee has died or has a different home address.**" (My emphasis)

Since the agent's address has already been released by virtue of the November 9, 1995 letter and in keeping with the Board's policy on addresses of Secret Service employees, the agent's address in **180-10118-10068** can be released as follows:

3 releases. No postponements.

II. The following document contains one postponement for an address of an outside contact interviewed by the HSCA. The contact, Leroy Gutch, lived across the street from James Martin, Marina Oswald's former business manager. There is no indication in the document or from any other source that I am aware of that Leroy Gutch was an employee of the Secret Service. The Board may wish to consider whether Leroy Gutch's address merits the same protection as the addresses of USSS agents and employees.

180-10075-10092 (Agency file # 009284) One proposed postponement.
