

MEMORANDUM

January 17, 1996

To: David Marwell, Jeremy Gunn, Mary McAuliffe, Phil Golrick, Noelle Gray, Jerrie Olson

From: Joan Zimmerman

Subject: USSS Document at January 30-31, 1996 Board Meeting

In the interest of giving the Secret Service some time to recover from the Board's recent releases of USSS material, only one item from the HSCA referred documents will be on the agenda:

180-10078-10450 (Agency File # 009399)

The Secret Service already opened this document per USSS letter of November 9, 1995, but it contains CIA equities. Kris Wilhelm is holding this document back until ARRB has more information from the CIA. Barry Harrelson has (today) promised a response within the next few days, and he is aware that the Board will consider the CIA's postponements (if any) at the next meeting.

Update January 17, 1996 after 3:30: Barry Harrelson called to say that the CIA has no objection to complete release of this document.
