Eric:

Would you please look at these documents to see if there is information similar to the list?

These three are in the USSS Official Case File:

- Letter from Rankin to Rowley [March 24, 1964] Box 2 Document 9 #1370
- Memo from SAIC Sorrels to Chief Rowley [January 6, 1964] Box 3 Document 14, folder 1 #992
- Investigative Report from John Campion to Chief Rowley [December 3, 1963] Box 4 folder 2 #1392

I am not sure where the following USSS documents are (or even if they are in the Official Case File), but each should be on a security topic:

#922

#1380

#1452

This last one is a Commission Document: #823

All of these should address the issue of planning and preliminary survey activity for presidential travels. If any of them refer specifically to the items on the list, please copy them. Otherwise, no need.

Thanks!

Joan
