

1. Julio Garcia - The Secret Service has a computer record and a file for subject "Julio Ceasar Garcia" However, since the subject was born in 1957, we believe this is not the Julio Garcia we are searching for, and we are not forwarding a copy of the file.

A copy of the Secret Service computer record and Secret Service documents containing references to a "Julio Garcia" which were pulled from a file regarding another subject, are attached.

2. Manolo Ray Rivera - the only document available from his file is a computer abstract. Recommend this be designated as an assassination record.

3.
