NOTES FOR MEETING WITH JEREMY AND MICHELLE

A. Pending Board Action

1. The Board still needs to determine whether the following are
Assasination Records:

- Materials relating to the Bouck case

2. There are also materials which Joan has indicated she does not believe
Are Assasination-related.

3. Another issue which must be addressed is that of The Record. Per Joan: In the event the USSS does not want to designate these as open, she suggests opening the section of each volume entitled "Protection of the President." and setting a deadline for review.

4. Protective Surveys: Per Joan: If Board determines that it does not wish to take action on these documents, then they will remain at NARA and researchers can make FOIA requests for them.

5. Note: "Other places July - Nov. 1963 is missing. So too is Berlin (6-23-63). Machado knows and is looking.

6. Michelle's question - does Suitland keep records of who looked at files
From '78 to '95?

7. Michelle's question - Are there internal tapes from USSS regarding White House Communications Agency? Should we make a request to the WHCA? Doug? Air Force one tape?

8. Protective Surveys (1961-1962)

1. Consent releases (we do RIFS)

2. Postponements, they do RIFS

3. Board Vote - we need a staff rec. Do we designate all/none/some?

9. Eileen Dineed threat sheets. (Two memos and summaries of surveys)

1. Board voted to release.

2. Secret Service not happy.

3. SS claimed 6.5 postponements (operational techniques)

4. Board asked SS to demonstrate whether these people were
Alive or dead.

5. Background: First accession was in 1974. It described approximately 210 U.S. Secret Service Protective survey files in 6 boxes. These were categorized as permanent retention. Beginning in August, 1993, USS and National Archives rescheduled these for selective destruction. Before ARRB staff had an opportunity to view these records, the contents of box 1 and box 6 were destroyed. Box 1 contained 25 folders of material dated 1961 to 1963. Box 6 contained 25 folders of material dated 1961 - 1963. Box 6 contained 25 folders dated 9-24- 11-8-63. The issue here is names in the files. The protective surveys are one of three groups that contain names from Protective Research Section. The other two groups are threat sheets and Eileen Dineed memorandums. Names released in one group would be released in the others. The Board already considered the threat sheets and the Dineed memorandums at the Nov. 13, 1996 meeting.

6. Per Joan: USSS has destroyed Protective surveys for Johnson. Verify that this is the case.

NOTE: FOR ME - PULL THE MATERIALS REFERENCED IN JOAN'S memorandum in the event you need to argue this to the Board.

10. Pending - The Record

11. SS-7 (Includes Abraham Bolden file)

- 3 files on investigation (missing 400 pages)

12. SS-9 (NSA Memorandum of Understanding)

- Ask NSA for 1963 era letter? 1977 letter?

- Follow-up letter on "s" files. If USSS can't answer - should we Talk with clerks, etc. ?

- We need PRS - WH detail records from November, 1963.

13. SS-11 (Bouck materials)

- Michelle's suggestion that to the extent they have records
For the future - must continue to give these to Archives.

14. SS-14 Michelle - She suggested that we want files on David Martin Goff.

- Correspondence with Congressional Committees

- NOTE: Files were made available to the Church Committee in late
1975. (Wallach's letter to McBrien dated Nov. 24, 1975) (THIS

LETTER references a USSS index # for many of the documents that the Church Committee requested.

- Documents re: destruction of USSS records by SAIC James M. Mastrovito (1965).

- Testimony of Elmer Moore, Patterson, and any other SS officials before the

CHURCh committee and/or other committees.

/.

15. SS-16 Classified Log Book -

- Michelle - SS says it cannot locate its own T/S documents. Provide clerks/etc.

- Ask to have classified logbook made available to ARRB.

- Ask for inventory of all logbooks for 1963 - 1964. We wish to see the books they have given us pages from. I think they should have to provide all of the logbooks.

16. SS-17 Pending - computer print-outs available (see my notes.)

Apparently, John Machado has mentioned that the actual files still exist. We need these.

17. See September 30, 1997 letter.

U.S. Secret Service Response to SS-12.

18. Deposition piece.

- Has this been sent yet?

19. Has Jane sent letter re: Project STAR? See Joan's notes p. 9

20. Joan's letter to Jackson Krill proposing contact at the end of September?

What ever happened with this?

21. Apparently, John Machado still has OMB documents and may propose postponements. (See Joan's memo entry for August 26, 1997.)

22. Issue of Appointment slips?

23. Machado said he will check for Berlin Protective survey. He will also write memo regarding missing folder "Other places July - December 1963). `1919.

24. Remmeber documents from IRENE - in SCF

25. REMAINING QUESTIONS
