3. Continued Search efforts for Chief Rowley's Files
4. Please provide any videotapes, written materials, or other information that describes or documents this visit or visits with other Secret Service Officials who may have discussed the Kennedy assassination. Further, we will ask that you provide a list of any relevant materials obtained during this visit.
5. SS Photographs and Tapes - Our letter initially stated that we believed that you had complied with this request. However, there is the Washington Post article.
6. Protective Survey Reports
 - A. "Other Places Folder" #6 July - November 1963
 - B. Berlin Protective Survey Report (June 26, 1963)
 - C. Protective Survey Reports from January 1961 - March, 1963
7. Must confirm in writing that they have transferred the Abraham Bolden file in full at NARA.
8. Please detail your efforts at searching for other records pertaining to internal security reviews of Secret Service agents who were working with the White House Detail, the Protective Research Service, or the Dallas Field Office at the time of the assassination.
9. Please confirm that you have searched for the agreement that existed between the USSS and NSA - referred to as "pages 145 - 151 of the briefing book prepared for Stuart Knight's testimony before the HSCA.
10. Any additional records or files concerning Robert Bouck in his capacity as Chief of the Protective Research Section.
11. Certain other major categories of records that have not been adequately accounted for. Included among these categories are records and files of Chief Knight, Inspector Thomas Kelley, files of the Chief Inspector and Field Office Inspectors, Vice Presidential Detail records and Office of Information and Liaison. IN our letter, we requested that you confirm that you have provided us with all inventories, indices, and finding aids that exist with respect to records in storage at the Secret Service's Centre point facility in Landover, MD, at the Federal Records Center in Suitland, MD and at any other repository for Secret Service Records.

12. With regard to Correspondence with Congressional and Presidential Committees....”the Treasury Department would be forwarding two letters that it had located, and (e) records regarding a “Project STAR” had been located and would be forwarded to the Review Board.

We have still not received a response on the Project STAR issue. Apparently, the Secret Service has one set of records that it is still reviewing. Also, DARPA possesses several Project STAR documents and these are awaiting consideration by the Office of the Secretary of Defense. Machado told us that the Secret Service would forward these to us as soon as they had received them from DARPA.

16. We requested that you make any and all logbooks covering the Kennedy and Johnson administrations available for our review.
