

## MEMORANDUM

I have reviewed the file entitled "August 28, 1963. I found six records which I believed were assassination records. The remainder of the file did not contain assassination records. Many were documents of the Metropolitan Police Department regarding the August 28, 1963 March on Washington. There were also a few Secret Service Documents in this file pertaining to the March on Washington. Also, there were several documents that related to the protection of President Eisenhower, and one document that related to the Guard booth and the Home of ex-President Truman in Independence, MO.

10 total documents on March on Washington.

8 documents on Eisenhower Protection

1 Document on Truman Protection

I did find six that were relevant. These were designated at the April Board Meeting.
