Re: Privacy restricted documents in the HSCA records

The three categories of documents are:

1) Documents which are open in full and the database has yet to be updated. The identification forms of these have been corrected by hand.

2) Documents with social security numbers redacted.

3) Documents that were withdrawn from the files because of "otherwise restricted information. On these we noted on whose authority the document was withdrawn.

Included here are also the RIFs from the series "Exhibits from Executive Session Hearings" that were withheld for privacy. This series has no counterpart in the JFK Collection at Archives II because it has been postponed in full.
