I recorded the closed meeting of the Assassination Records Review Board today, June 7, 1995. There were four cassette tapes recorded, each of which I labeled by number and date. Tapes 1 and 2 recorded the morning session of document review. The morning session ends at the beginning of the second side of tape 2. Tapes 3 and 4 recorded the afternoon session of document review. The meeting ended at the end of the first side of tape 4. The tapes are classified "Secret".
