

MEMORANDUM

April 30, 1996

To: Customs File

From: Laura Denk

Subject: Customs Compliance with JFK Act

I called Bruce Miller today at 3:00 p.m. to try to set up a time to get back out to Suitland to finish reviewing documents.

He said that he has law school exams for the first two weeks of May, and that he will not be at work for the third week of May. He said he would call back during the middle of the last week of May to set up a time to finish our review at Suitland.

Bruce said that he had received "everything back from the field now" (presumably, this means that each field office has responded to his call for assassination records). He said that once we complete our review of the materials at Suitland and he finishes processing the referrals, he thought that Customs would be "all finished" with its outstanding tasks pursuant to the JFK Act.
