

## MEMORANDUM

April 8, 1997

To: Carol Keeley  
JFK Task Force

From: Laura Denk

Subject: Follow Up on FBI-36: Request for Additional Information (Hoover and Tolson records)

Thank you for making records available to our staff in response to our March 18, 1997, request for Hoover and Tolson records.

After a preliminary review of these records, Ron Haron has identified additional FBI records that seem to be responsive to our request. This will confirm my discussion with you yesterday in which we agreed that our March 18, 1997 request includes the following records:

- (1) inventories of Director Hoover's files prepared by Cornelius G. Sullivan in 1972, referenced in Sullivan's January 28, 1975 memorandum to Inspector Hunter E. Helgeson;
- (2) alphabetic and numerical listings of Director Hoover's O&C files and an analysis of the files (62-116006-13x, 14);
- (3) FBI HQ file 62-116607 that appears to be a control file relating to certain Hoover records that Louis B. Nichols and his successors maintained; and
- (4) unredacted copies of the Tolson files.

Thank you for your continued cooperation.
