RE: ARRB Requests for Evidence

Dear John:

In recent months, the ARRB staff has presented you with a list of documents that we intend to present to the Board for review of your postponements. Included among the documents referred to you on July 31, 1995 was one CIA document which contains FBI equities.

Through our continuing review of CIA records, we have identified three other documents which also contain FBI redactions. The ARRB staff feels that a simultaneous review may help facilitate your effort to provide evidence for the continued protection of these redactions.

These documents and their record identification forms are enclosed. However, unlike the first item referred to you in July, the ARRB currently has custody of these documents. The CIA has been made aware of this "third agency" issue, and we have made the proper arrangements with the CIA for the transfer of copies to your staff.

An examination of these documents will indicate that two of the documents deal with identical issues and are most likely very similar to the one which we submitted to you in July. In addition, the third document covers a slightly different but related issue. As before, we request that you provide us with any evidence or arguments regarding the specific FBI postponements.

As you know, although the enclosed request for evidence forms suggest that you submit such evidence or arguments in writing, we will be happy to discuss with you any other means of presentation that may be more convenient or practicable (e.g., formal presentations to, or informal meetings with ARRB staff members).

Sincerely yours,

David Marwell
Executive Director
