

**INTERVIEW OF GAETON FONZI
FORMER STAFF INVESTIGATOR, HOUSE SELECT COMMITTEE ON ASSASSINATIONS**

You stated in your book that the House Committee was more inclined to believe that Antonio Veciana's intelligence links were with elements of the US military intelligence establishment.

To what extent did you investigate those military intelligence leads?

Where did they take you?

Did you make any discoveries that would lead you to believe that the Maurice Bishop individual was perhaps working for military intelligence, and not the CIA?

Any documentation from non-USG sources on the assassination attempts on Fidel Castro (obviously understanding that the chance that any documents exist is probably remote)?

Anything in your research to suggest that other former JMWAIVE personnel might be worth contacting in order to acquire more records?

Do you have any knowledge of documents, for the time period surrounding the assassination, which may link private American sponsors of anti-Castro activity to USG intelligence/military efforts?

Information in the possession of the estate of William Pawley, Clare Booth Luce, etc.

Do you have information on "other" individuals who had intelligence or military connections who would be in the possession of documents related to the assassination?

Eg Eladio del Valle

Cesar Diosdato

Do you have any information on the assassination-related documents which the Cuban government has allegedly collected?

Information from exile groups that is coming out now...

DRE information at the University of Miami

Would you know anything about/have you seen copies of the DRE newsletters in immediate aftermath of the assassination which placed the blame for the assassination on the Cuban government?

Our staff investigator spoke to Cliff Fenton about his attempts as an HSCA investigator to obtain the files of William Sullivan of the Justice Department. Would you have any insight on that matter?

Are you still in possession of your research/interview notes and associated documentation from your interview with Arlen Specter for the article which appeared in Philadelphia Magazine?

Are you in possession of documents involving your individual work verifying the activities of Mr. Veciana?

To what extent did the HSCA investigate Veciana's veracity on his anti-Castro activity?

Have you ever spoken to Edward J. Epstein regarding his interview with deMorenschildt prior to your contact with deM and his subsequent suicide?

Do you think that McKeown had anything to do with the comments about Bishop made by Ron Cross, Bart Henry and Doug Gupton?
