

Questions for Jack Anderson/interview format

I will begin our discussions by stating that the primary purpose of the JFK Assassination Records Review Board is to assemble a complete historical record of documents related to the assassination. During the course of our three year history, we have expanded this mission to include the interviewing and deposing of individuals who were involved in the events surrounding the assassination in order to “clarify the record” where some inconsistencies or confusion exists.

As such, the questions which we are posing to you today are all aimed at meeting those two objectives: clarifying the record on what you might know about the assassination, and acquiring additional documents. Please do not feel limited by the questions we are posing to you here -- please feel free to discuss anything related to the JFK/Castro subject as you see fit.

Questions

1. In terms of records, are you currently in possession of any notes, interview transcripts, or recordings of discussions with individuals who are in some way associated with events surrounding the assassination? Would you be willing to donate your materials to the JFK Collection at the National Archives?

This next group of questions deals with your efforts at verifying the information which you attribute to Johnny Rosselli.

Background: Can you state why Rosselli and Morgan decided to come to you with their story?

2. Before writing any of your columns, were you ever given access to any official government documents that either supported or refuted information given to you by Rosselli, et al?

A. Did you have sources inside the FBI, CIA, Church Committee or Rockefeller Commission that confirmed and/or added to the Rosselli information?

3. Did you have sources inside the Mafia that confirmed Rosselli’s allegations?

4. You have stated that the “JFK-turnaround plot” was merely speculation on the part of Rosselli. Has you ever made any further attempts to corroborate his story/speculation? Are you inclined to believe this part of Rosselli’s story? Why?

5. Did Rosselli ever identify the “sources” in Cuba whom he claimed provided him with the JFK-turnaround information?

6. In your opinion, did Edward P. Morgan’s stature as a reputable Washington lawyer impact on Rosselli’s credibility?

7. Are you willing to give us additional information on what you know about anti-Castro activities in the early 1960's?
