

MOTION REGARDING CONTENTS OF BOXES 8 THROUGH 20

That the staff recommendation be adopted regarding final determination of postponements in the following categories of assassination records assigned to Boxes 8 through 20 on the ARRB Review Track Database:

(1) Records as to which the staff recommendation is to open each postponement in full no later than [August 1996 -- would a later date be the most efficient way to account for certain categories of CIA records?].

(2) Records as to which the staff recommendation is to open in full, except for the postponement until October 2017 of a social security number.

(3) FBI records as to which the staff recommendation is to open in full no later than August 1996, except for:

(a) the postponement for ten years of informant-specific portions of certain informant symbol numbers and informant file numbers; or

(b) the postponement until October 2017 of a source symbol number for a technical source. The substitute language for such postponements shall be "Source Symbol Number."

[(4, etc.) Any further categories of CIA records.]
