

Golrick -- draft talking points for FBI on informant issue, 10/5/95

Information ARRB would find helpful in deciding informant postponements:

1) Is informant alive?

2) Did informant witness/report on violent persons/organizations/acts? If so, provide circumstances (whom did informant report on, when, how frequently, could the individual or organizational subjects of the informant's reporting still pose a plausible threat of retaliation, if the informant is exposed).

3) Written confidentiality agreement, if available.

If 2) and 3) are unavailable because informant file has been destroyed, please advise us of this and provide, if available, date and location of its destruction.
