Re: Preservation of Court Records Under the President John F. Kennedy
 Assassination Records Collection Act of 1992, 44 U.S.C. § 2107

Dear Mr. Meham:

I am writing on behalf of the Assassination Records Review Board ("Review Board") to seek your assistance in ensuring that certain federal district court and appellate court records relating to the assassination of President Kennedy are preserved as permanent records.

The Review Board is an independent Federal agency created by Congress under the President John F. Kennedy Assassination Records Collection Act of 1992, 44 U.S.C. § 2107 ("the JFK Act"). Since 1994, the Review Board has been working with a number of Federal offices to locate and publicly release records relating to the assassination of President Kennedy. It is our understanding that the Federal Courts are "Government office[s]" within the meaning of Section 3(5) of the JFK Act and that the courts are, accordingly, obligated to comply with the terms of the Act. For your reference, I am enclosing a copy of the JFK Act.

More specifically, we seek your cooperation to ensure that court files for Freedom of Information Act cases involving requests for records on President Kennedy's assassination are declared to have historical value and are preserved as permanent. It is our understanding that, under current document retention schedules, such district court case files are not automatically retained as permanent records and, in fact, might ultimately be destroyed. Accordingly, we ask that you instruct the clerks for the various federal judicial districts to preserve as permanent records any district court cases, which in most instances will be FOIA cases, that can be identified as relating to President

Kennedy's assassination. We ask that the clerks then advise the National Archives and Records Administration ("NARA") of any such records. Mr. Steven D. Tilley is the Chief for the JFK Collection and he should be notified regarding the existence of any case files that relate to President Kennedy's assassination (his address is NARA at College Park, 8601 Adelphi Road, College Park, Maryland 20640-6001, and his telephone number is 301-713-6620 (ext. 360)). NARA can then determine whether such records should be included with its permanent court record holdings or included within the JFK Assassination Records Collection ("JFK Collection") at NARA in College Park, Maryland.

We appreciate that there may be a practical difficulty in the ability of the various Clerk's Offices to identify case files that substantively relate to records on the Kennedy assassination. We have, therefore, identified a number of significant FOIA cases wherein the files should be preserved. Because many of these originate in the Federal District Court for the District of Columbia, we are sending a copy of this letter directly to the Clerk of that Court so that she can coordinate with NARA on the possible transmission of those case files to the JFK Collection. The FOIA cases we have identified are:

1. *Weisberg v. Department of Justice*, No. 75-0226 (D.D.C.). This case involved a request for spectrographic and/or neutron activation analyses conducted by the FBI on bullet fragments and other materials at issue in the Kennedy assassination.
