

MEMORANDUM

January 29, 1998

To: Laura Denk
Kevin Tiernan

From: Ronald G. Haron

Cc: T. Jeremy Gunn (w/o enc.)
Thomas Samoluk (w/o enc.)

Subject: FBI Compliance Under the JFK Act

Attached is a DRAFT master list of FBI files that have been identified under the JFK Act. The list includes the "core and related" files, the "HSCA subjects," and the files made available in response to Review Board requests. I would like to have this available for Jeremy and Tom in connection with our meeting next week on FBI compliance. I have organized the list by files by origin (FBI Headquarters and field offices), as well as by general subject categories. I would like to have it as accurate as possible for our meeting so that we can refer to it in evaluating both FBI compliance in terms of whether we have received all substantively relevant files, as well as to reflect generally the current status of processing files for the JFK Collection.

Please review this and give me your input, including suggested files that we should request and also the status of processing of files generally (*e.g.*, currently negotiating, ready for JFK Collection, file not made available, review complete, etc.). Any other suggestions, additions, clarifications, or other comments would be welcome. If possible, please give me your comments by the end of Friday so that I can get this revised for our meeting. Thanks.
