

MEMORANDUM

September 10, 1997

To: Rochelle Juelich
From: Ronald G. Haron
cc: T. Jeremy Gunn
Subject: Assignments

I have the following assignments for you:

1. Reviewing the 1962-64 files of the General Counsel for the Department of Treasury (G. D'Andelot Belin) at NARA. Mr. Belin was Treasury's liaison to the Warren Commission. I would like you to identify and copy any documents in his file that relate to the Warren Commission or the assassination.
2. Reviewing a set of Warren Commission records that relate to the Commission's correspondence with certain Government agencies. I would like you to identify which agencies supplied information to the Warren Commission, who the agency contacts were, and whether any files or records were referenced or provided by the agency. By your reviewing this correspondence, it will allow us to double check whether we have identified and obtained relevant records from the agencies.
3. Reviewing the State Department files for the U.S. Embassy in Moscow (referred to as the "Moscow Post files"). We started but have not completed this review. We would be looking for any records relating to Oswald's defection to the Soviet Union, his stay in the Soviet Union, and anything related to the assassination (*e.g.*, communications from the U.S. Embassy regarding Oswald after the assassination).

Let's discuss these when you get in.
