

MEMORANDUM

September 9, 1998

To: Marie Fagnant

From: Ronald G. Haron

Subject: Copies of Autopsy Photos Submitted

I have spoken with Steve Tilley regarding the issue of whether to postpone copies of JFK autopsy photos that have accompanied public letters to the Department of Justice.

In Steve's opinion, these public copies should be released. But he suggested that the Comment Field for the RIFs state that the autopsy photos attached to the documents were provided by the public and that the U.S. Government makes no representation as to their authenticity or relationship to the autopsy photos maintained by the Government at the National Archives.
