

Department of Defense Records Related to the Assassination of President Kennedy

Pre-assassination

All MOUs, MOAs, security requirements or arrangements between the U.S. Secret Service and any of the military services (primarily, but not exclusively, with Army Intelligence) that were operative at any time during 1963.

All MOUs, MOAs, security requirements or arrangements involving military assistance rendered to the U.S. Secret Service with Presidential protection in support of his trips to Florida and Texas in November, 1963.

Any available MOUs or MOAs defining command responsibilities and lines of authority, responsibility and accountability when individuals of the Central Intelligence Agency serve under "military cover", i.e., are employed and operate for the CIA while wearing the uniform of one of the armed services. (Applicable period of interest here is 1956-64.)

Full and complete rosters of DOD attendees (both active duty military and civilian) who received Russian language training at or from the U.S. Army's School of Languages in Monterey, CA (now known as the Defense Language Institute) during the years 1957-1959, inclusive.

Defense Intelligence Agency foreign surveillance conducted in Mexico, Cuba or in the USSR from 1961-64 (to include HUMINT, electronic and photographic sources) pertaining to threats or plots against the President, Lee Harvey Oswald, or any of the common variants associated with his name (such as Harvey, Lee Oswald; Lee, Harvey Oswald; Lee Henry Oswald; Henry Lee Oswald; O.H. Lee; Alek J. Hidell; A.J. Hidell; etc.).

Any DOD-sponsored or DOD-directed counterintelligence activities or covert operations conducted in Mexico or Cuba from 1961-64 related to Lee Harvey Oswald, Alek J. Hidell, or any of the other pseudonyms or aliases listed above.

Any DOD-sponsored or DOD-directed training or "running" of anti-Castro Cuban emigree groups or individuals in the United States from 1960-64.

Any DOD-sponsored or DOD-directed domestic surveillance of suspected American dissidents (perceived security threats) from 1956-1964.

Day of the Assassination: November 22, 1963

The unedited audiotapes (and transcripts, if available) of all radio transmissions

to-and-from Air Force One (SAM 26000), the Pacific Cabinet plane (SAM 86972), Andrews AFB, and various State, military and White House officials in Washington which were recorded on November 22, 1963 by uniformed military personnel at Andrews AFB who were working for the White House Communications Agency.¹

Any available audio recordings, if they exist, of Dallas motorcade radio transmissions which may have been recorded by active duty military personnel working for WHCA. (Note: existing documents indicate that motorcade radio transmissions were monitored inside SAM 26000 on the ground at Love Field, and at the White House situation room, "real time". Since Army Signal Corps personnel working for WHCA were responsible for relaying this information to the White House, it is a reasonable question to ask whether these transmissions were recorded.)

Any available records concerning U.S. Army (or Air Force) helicopters which may have landed and/or taken off from Andrews Air Force Base on November 22, 1963. The desired information would include type of helo, landing/takeoff time, and origin and destination.

¹Examination of the existing, edited audiotapes from the LBJ library indicate that voice traffic to-and-from Air Force One and the ground was all being patched through "Andrews" on the following four frequencies:

11176 MHZ (upper sideband)
 13247 MHZ (upper sideband)
 15011 MHZ (upper sideband)
 18027 MHZ (lower sideband)

Since one document on file at NARA indicates that the radio officer onboard Air Force One had 3 of these channels in "full time use" during the entire 2 hour and 17 minute flight back to Washington from Dallas, the original, unedited tapes could potentially be anywhere from 7-9 hours of conversation. (However, the edited LBJ library variant is only about 2 hours long.) Because military personnel on active duty made the recordings for WHCA, it may be possible that a military organization retained the originals, or a copy of the unedited originals.

A minimum of two Army Intelligence personnel were known to be in Dealey Plaza on the day of the assassination,² a third member of Army Intelligence was known to have arranged for Marina Oswald's first interpreter on November 22, 1963, and a fourth claims to have been at Parkland Hospital after leaving the Trade Mart speech site. In this context, please provide all available records on the following personnel:
