Dear Steve:

Thank you very much for checking the folders in Accession 87-75-0004, Boxes 2-5 so promptly. Your letter brought a welcome sigh of relief; we are glad to learn that no disposal has taken place on any files in these boxes.

I note that your search turned up one missing file: #602.111, Other Places Folder #6-July-Nov 1963" from Box 2. When Jeremy Gunn examined Boxes 2-5 in early February, 1995, he noted that three files were missing. The one you identified as well as two others were not in the collection of protective reports:

Box 3: 602.111 Key West, Fla. 3-26-61

Box 3: 602.111 New York 4-27-61

Are these two files now back in Box 3? That would be good news .

On another matter, we understand that the Secret Service sent White House detail shift reports to the National Archives in December, 1992. Would you please confirm in a letter that the *originals* of these documents are now in the Archives?

Thank you again for your rapid response.

Sincerely,

Joan Zimmerman
