Dear Ms. Goodpasture:

Jeremy Gunn recently left the Assassination Records Review Board to take a position with another agency. Since I am the analyst who works most closely with CIA Mexico City issues, Jeremy asked me to take care of the remaining administrative details in preparing the final copies of your two depositions.

Enclosed please find the sanitized copies of your deposition of December 15, 1995 and follow-up interview dated April 23, 1998, an errata sheet to record any corrections, and a Certificate of Deponent for your signature. You will notice that there are some redactions in the transcripts. CIA sanitized the original so that we could make it available for public release. Once you have verified the accuracy of the transcripts, we request that you return the transcripts along with the errata sheets containing any corrections, and a signed, notarized copy of the Certificate of Deponent.

As you may be aware, the Review Board's mandate expires on September 30, 1998. Therefore, we respectfully ask that you return the transcripts as soon as possible, with any changes you might have, so that we can finalize the transcripts for release before our closing date. Should you have any questions, feel free to call me at (202)724-0088.

Thank you once again for your assistance. The Review Board has appreciated your willingness to cooperate with us over the past several years.

Sincerely,

Irene F. Marr
Senior Analyst
