

Agency: Main Treasury

Person reporting: Dennis Quinn

Agency Compliance:

To date, the Treasury Department has not identified any assassination records, with or without redactions or postponements. The Department did not conduct a file search for any such records. ARRB staff conducted a review of the file inventories and identified approximately two cubic feet of assassination records held at the Federal Record Center at Suitland. Treasury Records Personnel have been cooperative in retrieving and allowing access to those records.

Agency: Immigration and Naturalization Service

Person Reporting: Dennis Quinn

Agency Compliance:

To date, the INS has identified approximately five cubic feet of assassination records. About 1/3 of these have been reviewed by INS personnel and no redactions or postponements have been made. None of these records have been reviewed by the Review Board or staff. Although the INS failed to respond to our initial inquiries, a liaison has now been identified and is fully cooperating with us.
