

MEMORANDUM

DATE: October 20, 1997

TO: GSA File

FROM: Ronald G. Haron

SUBJECT: GSA Records Relating to the JFK Assassination

I received today by facsimile the SF-135 forms for certain records of the General Services Administration ("GSA") that should be reviewed in connection with identification of assassination-related materials. These SF-135 forms are attached.

The accessions are:

1. No. 70-4883 (Central Files of the GSA Administrator for 1968). These contain an entry for "REPT - Assassination of President Kennedy."
2. No. 80-0008 (Files of the Deputy Administrator). These contain "John F. Kennedy Files" as well as "Kennedy Library Material." There is also a "Mrs. John F. Kennedy File."

I am not certain whether or not these records are currently open to the public. I am asking Peter Voth to locate these records and to review them to identify any significant assassination-related records or any records that may assist us in working with the John F. Kennedy Library. Peter may need to contact the GSA Compliance Officer, Sharon Lighton (202-501-2262), to obtain access to some or all of these records.
