Dear Dr. Janney:

It was a pleasure to speak with you concerning assassination-related records created while you were a member of the photographic team at the Los Alamos Laboratory during the House Select Committee on Assassination's investigation. As we discussed, the Review Board is mandated by Congress to identify and locate all records pertaining to President Kennedy's assassination, including those from former investigations. The information you provided will be helpful in the identification of previously unknown records.

At your request I've enclosed a fact sheet about the Review Board, a copy of our legislation, and a pamphlet published by the National Archives that describes the JFK Records Collection. Please contact me at ext. 258 if you have any questions or if the material helps to refresh your memory regarding other assassination-related records.

On behalf of the Review Board, I appreciate your assistance in our efforts to add records to the JFK Collection. I look forward to speaking with you again.

Sincerely,

David R. Montague  
Investigator
