Dear Steve:

I am working on an investigative project that involves gathering the names and current addresses and telephone numbers for ALL members, staff, and consultants for the six prior federal commissions and committees that in some way investigated President Kennedy's assassination. To date, I have many of the names and a few current contact addresses for some of the staff and consultants but I need a more focused and complete source of this information. (If I can get a complete name, date of birth, social security number, and an old address or telephone number, I can usually develop information on someone's current whereabouts.)

David Marwell suggested you would know the status of the personnel records for the Warren Commission, the HSCA (actually, Joe Freeman has been working with these records and has been able to get a lot of information for me but I may need more), the Pike Committee, the Church Committee, the Rockefeller Commission, and the Ramsey Clark Panel (I also need the report from this group. The Library of Congress and Department of Justice both claim they do not have a copy. Do you have one in the JFK Collection?)

I will call you on Friday to discuss your ideas and suggestions for obtaining this information. Thank you in advance for your help.

Sincerely,

Anne Buttimer, Esq.
Chief Investigator
