Re: Review Board Document Release Today;
FBI Homer Echevarria Document and HSCA Background

Attached is the Review Board news release on records which the Board recently voted to release and are available through the Archives today.

Also attached is one of the documents, which I thought might be of interest to you. The document deals with Homer Echevarria and his father. In addition, excerpts are included from the HSCA Final Report highlighting and expressing concern about how the Echevarria matter was handled by the FBI in 1963-64 (in two different sections of the Final Report).

Note: Newly-released information by the Review Board about Homer Echevarria's father and his relationship with the FBI is in brackets.
