Dear Mr. Bosrker:

I am sending you back the attached correspondence from Ms. Patricia Lambert and accompanying materials related to a FOIA request she made to the United States Attorney in New Orleans.

The Assassination Records Review Board's mandate is to review records related to the assassination of President John F. Kennedy. The Review Board does not compile records related to the assassination. All assassination records which are reviewed and made publicly available as a result of Board action are sent to the National Archives at College Park, Maryland to become part of the President John F. Kennedy Assassination Records Collection. Thus, the Review Board is not a keeper of records on the assassination.

In the future, before referring a letter to us for response, please call me to inquire if we are the appropriate agency to respond.

Thank you for your anticipated cooperation.

Sincerely,

Thomas E. Samoluk, Esq.  
Associate Director
