Proposed Statement in Response to Inquiry Regarding Status of Three CIA Docs.

The Assassination Records Review Board is engaging in discussions with the CIA regarding three documents that the Board voted to release in part at three recent meetings. The CIA is presenting additional evidence on each of the three documents. Pending further discussion by the Review Board at its next meeting, the documents are only available in their redacted form. The issues in the respective documents are: disclosure of the originator of a cable, release of a cryptonym, and protection of information about an individual.
