David:

I have pulled together some information for you to review before your presentation at the COPA Conference this Sunday, October 20, 1996.

First in the batch are outlines from past presentations as well as Jack's comments from past conferences.

The second group of documents contain any recent, comprehensive updates, submissions to newsletters, letters from Jack to the public, and the outline for the FY 1996 report.

I hope this is helpful. If I think of anything else I'll pass it along to you.
