Baltimore, MD 21218

Dear Mr. Livingstone:

This is to acknowledge receipt of your letter dated April 28, 1996. I understand your intense interest in the Review Board's pursuit of records related to the medical evidence. However, there is no need for a meeting. The staff has consulted with several medical experts, including Doctors Mantik and Aguilar.

As always, thank you for your continuing interest in the work of the Review Board

Sincerely,

Thomas E. Samoluk, Esq.
Associate Director
