At the L.A. hearing, John McCarthy, to whom Jeremy talked on the telephone prior to the hearing at DiEugenio's recommendation, handed me materials related to Dr. Finck's alleged wrongdoing in a matter unrelated to the assassination. I do not think the material should be included in the official record of the L.A. hearing. I plan on giving it to Eileen for inclusion in a correspondence file for McCarthy. It will still be part of the ARRB files that go the Archives, just not as part of the LA hearing file. No response is required, unless you have a different thought on this matter.
