Dear Dr. Caufield:

Thank you for your letter of December 28, 1997 and the enclosure. I have passed the letter and the enclosure along to the two staff people who have worked on Department of Justice records. Upon an initial review, given the realities of the time constraints under which we are working and our limited resources, these particular records may be less central to the history surrounding the assassination than other records that are the focus of our attention.

As always, I thank you for writing and apprising us of this matter. We appreciate your time and effort. Please do not hesitate to contact me if you have any questions or additional information that you would like to share with the Review Board.

Sincerely,

Thomas E. Samoluk, Esq.
Deputy Director
