Dear Dr. Caufield:

Thank you for your letter of November 29, 1997 and the enclosures. I have passed the letter and the enclosures along to the staff person who heads our FBI Team for her review. I do know that records on Edwin Walker were the subject of a recent request that we made to the FBI. These files have been reviewed and some of them will be designated as assassination records for inclusion in the JFK Collection. There will also be follow-up on Milteer.

It was nice to meet you in Washington. We appreciate your time and effort. Please do not hesitate to contact me if you have any questions or additional information that you would like to share with the Review Board.

Sincerely,

Thomas E. Samoluk, Esq.  
Deputy Director
