Dear Mr. Ewell:

Thank you for taking the time to speak with me on the telephone yesterday and for putting me in touch with Sheriff Bowles so quickly. It was very helpful for me to speak with both of you and I enjoyed the conversations.

I intend to follow-up with the people you mentioned to me during our conversation. As I know you are aware, the goal and mandate of the Review Board is to make the historical records surrounding the assassination of President John F. Kennedy as complete as possible. Please advise me if you think of any records that may be relevant to the assassination or other individuals who may be able to assist us with locating records.

Again, thank you for all of your cooperation. I appreciate your ready willingness to take time out of your day to assist the Review Board. I look forward to the opportunity to speak with you again in the future.

Sincerely,

Thomas E. Samoluk
Associate Director
