Dear Mr. Wilson:

Thank you for your recent letter regarding your request to present evidence related to the assassination of President Kennedy to the Review Board.

Dr. David Marwell had brought your request to my attention. As Dr. Marwell previously stated, it would be appropriate for the staff to review your evidence first. Once this initial review has taken place, the staff will make a recommendation regarding any possible further action that should be taken.

The Review Board appreciates your interest, and the staff stands ready to receive and review your materials related to the assassination.

Sincerely,

John R. Tunheim  
Chair
