

Administration Update for 6/16

- * Requested CIA to begin SCI clearances for 10 employees
- * There are 7 cases as DoJ for adjudication guidance. We are hoping to get the OK to have them briefed on June 20. At that time, all current employees (except Christine and Jerrie) will have TS clearances.
- * The ARRB was accredited by the Defense Investigative Service this week. This will allow us to have access to DIS investigative files for our future and current employees. We are currently waiting for Doug Horne's file from the DIS.
- * Jerrie Olson began employment with the ARRB on June 12. With her arrival and the impending start date of July 3 for Christina, the Administrative Section is complete. We are in the process of setting up standard procedures that will then be shared with the entire staff.
- * Hotel reservations were made for the Board and staff travelling to New Orleans. A/V requirements and other logistics relating to the meeting have also been taken care of.
- * Spending figures are being revised through the end of May and will be available for next week's update. (Or a separate mailing if you prefer.)
